

User guide

Introduction

We have designed the eDevelopment.scot website to provide an efficient and supportive process for members of the public and professional services (such as architects and agents) to complete and send in Planning and Building Standards applications, notice of reviews, appeals and other permissions needed under planning law. It also allows you to attach relevant documents, buy and mark up a location plan and pay the application fee electronically.

The site guides you through the process, and your application is much more likely to be valid when it is received and checked by the planning/local authority. This will also speed up the process.

This guide describes how to use the site.
